Planning Constraints

Ground Stability

Radon

Environmental Sensitivity

Transportation

Planning Applications

Energy and Infrastructure

Classification Key

In this report, a traffic light system signifies identified potential risk levels. These are explained as follows:

No issues identified

Potential issues identified, proceed with caution

Issues identified, further action likely needed

For information purposes only

Summary

Example - Comm Lite Enviro + Planning

Contaminated Land		Flood Risk		Planning Constraints	
Active Landfill		Fluvial (undefended)		Sites of Special Scientific Interest	
Former Landfill		Pluvial		Ramsar	
Active Petrol or Fuel Stations		Tidal (undefended)		Nature Reserves	
Former Petrol or Fuel Stations		Groundwater		Listed Buildings	
Public Register of Contaminated Land		Flood Defences and Benefiting Areas		Scheduled Monuments	
Contaminated Land Designated as Special Sites		Flood Storage Areas		Certificates of Immunity	
Consented Discharges to Controlled Waters (with Conditions)		Historical Flood Areas		Ancient Woodland	
Environmental Pollution Incidents		Planning Constraints		Registered Parks and Gardens	
Manufacturing and Production of Industrial Products		Green Belt		World Heritage Sites	
Former Military Sites		Areas of Outstanding Natural Beauty		Open Access	
Regulated Sites		National Parks		Radon	
Historic Land Use		Special Areas of Conservation		Radon	
		Special Protection Areas			

Summary

Example - Comm Lite Enviro + Planning

Transportation		Ground Stability		Environmental Sensitivity	
Overground Rail		Shrink-Swell Clays		Geological Permeability	
Overground Rail - Elizabeth Line		Running Sands		Environmentally Sensitive Sites	
London Underground		Compressible Ground		Surface Water Features	
HS2		Collapsible Deposits		Planning Applications	
HS2 Safeguarding Zones		Artificial Ground		Large Scale Developments	
Energy and Infrastructure		Dissolution of Soluble Rocks		Small Scale Developments	
National Grid		Landslides

Power Stations		Bedrock Geology			
Solar Renewable Energy Sites		Source Protection Zones			
Wind Renewable Energy Sites		Superficial Deposits			
Other Renewable Energy Sites		Aquifer Designation			
COMAH Establishments		Groundwater Vulnerability			

Contaminated Land

Active Landfill

The property is within 1km of an active landfill or waste site. Contamination, surface instability, and ground gas issues could arise. There may also be noise and nuisance concerns. Consider contacting the Environment Agency to inquire about any noise or nuisance complaints or enforcement action. For further assistance, [contact us](#)

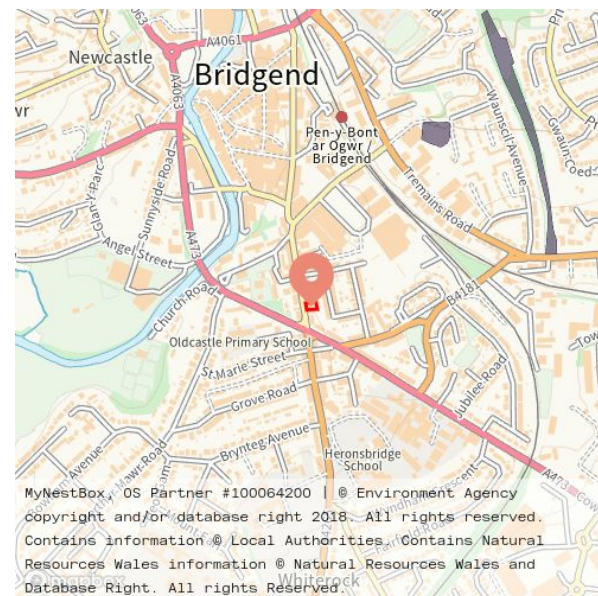

Captured at: 26/11/24 20:05 UTC

Former Landfill

The property is within 500 metres of a former landfill site. Former landfills can generate gas or leachate which can pose a risk to buildings and occupiers.

Captured at: 26/11/24 20:05 UTC

Active Petrol or Fuel Stations

The property is more than 20 metres from an active petrol or fuel station.

Captured at: 26/11/24 20:05 UTC

Former Petrol or Fuel Stations

The property is more than 10 metres from former petrol or fuel station.

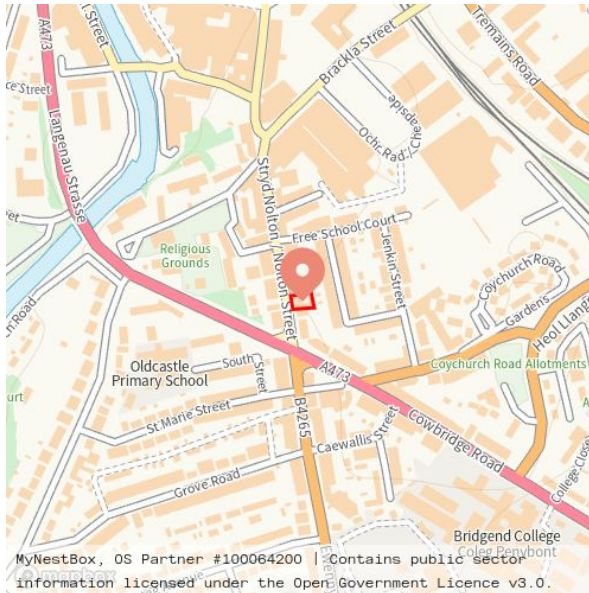

Captured at: 26/11/24 20:05 UTC

Contaminated Land

Public Register of Contaminated Land

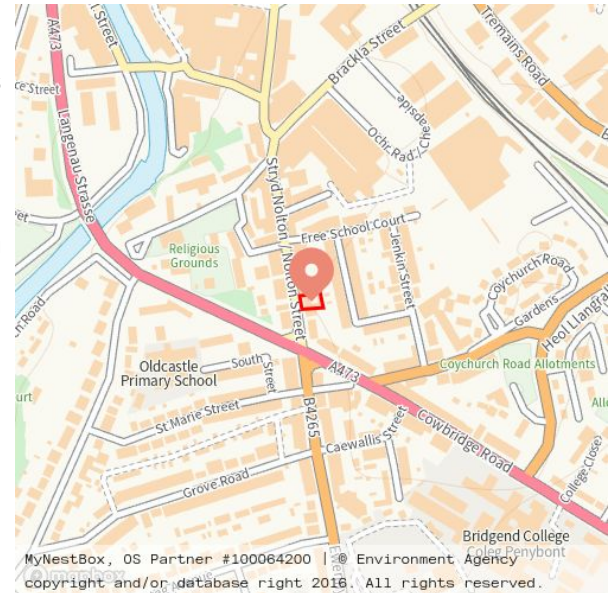

The property is more than 250 metres from any sites that have been designated as Contaminated Land by a local authority.

Captured at: 26/11/24 20:05 UTC

Contaminated Land Designated as Special Sites

The property is more than 250 metres from any sites that have been designated as a Special Site by the Environment Agency.

Captured at: 26/11/24 20:05 UTC

Consented Discharges to Controlled Waters (with Conditions)

The property is more than 50 metres away from a licensed consent for discharging effluent into Controlled Waters.

Captured at: 26/11/24 20:05 UTC

Environmental Pollution Incidents

The property is more than 50 metres from any major or significant pollution incidents.

Captured at: 26/11/24 20:05 UTC

Contaminated Land

Manufacturing and Production of Industrial Products

The property is more than 10 metres from a licensed industrial land use.

Captured at: 26/11/24 20:05 UTC

Former Military Sites

The property is not on or near any former military sites which could lead to a Liability under Part2A of the Environmental Protection Act (1990).

Captured at: 26/11/24 20:05 UTC

Regulated Sites

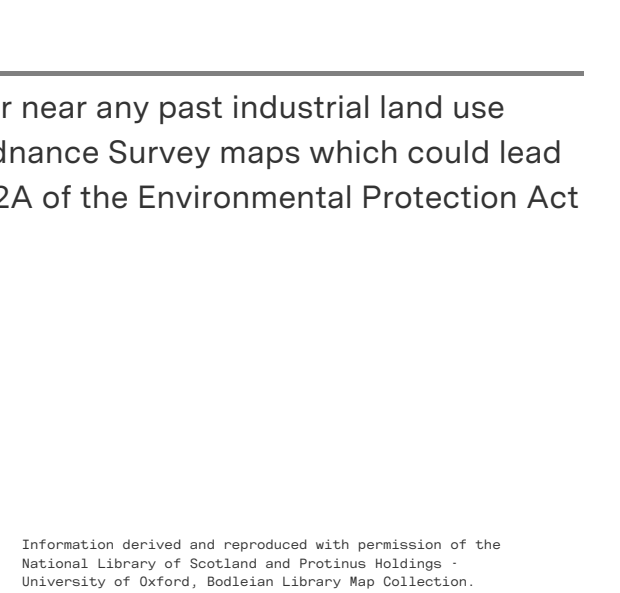

The property is in close proximity to one or more Regulated Sites. These include closed mining areas, end-of-life vehicle treatment sites (operational for 7 years or more), open waste permitted sites, and industrial environmental permitted regulated facilities (permit types A and B only). Proximity to a Regulated Site may cause disruption.

Captured at: 27/11/24 11:26 UTC

Historic Land Use

The property is not on or near any past industrial land use depicted on historic Ordnance Survey maps which could lead to a Liability under Part2A of the Environmental Protection Act (1990).

Captured at: 26/11/24 22:13 UTC

Information derived and reproduced with permission of the National Library of Scotland and Protonus Holdings - University of Oxford, Bodleian Library Map Collection.

Fluvial (undefended)

No flood risk issues of concern were identified. Flood hazards are either not present in the search area or are considered very low likelihood and severity.

Captured at: 26/11/24 18:40 UTC

Pluvial

No flood risk issues of concern were identified. Flood hazards are either not present in the search area or are considered very low likelihood and severity.

Captured at: 26/11/24 18:40 UTC

Tidal (undefended)

No flood risk issues of concern were identified. Flood hazards are either not present in the search area or are considered very low likelihood and severity.

Captured at: 26/11/24 18:40 UTC

Groundwater

No flood risk issues of concern were identified. Flood hazards are either not present in the search area or are considered very low likelihood and severity.

Captured at: 26/11/24 18:40 UTC

Flood Defences and Benefiting Areas

When a property is within an area benefitting from flood defences (ABFD), the risk of Fluvial or Tidal flooding could be significantly reduced. The map shows ABFD shaded in purple, though absence of ABFD does not necessarily mean the property is at risk from flooding.

Captured at: 26/11/24 18:40 UTC

Flood Storage Areas

The property is more than 250 meters away from an area which is used for flood water storage (balancing reservoir, storage basin or balancing pond).

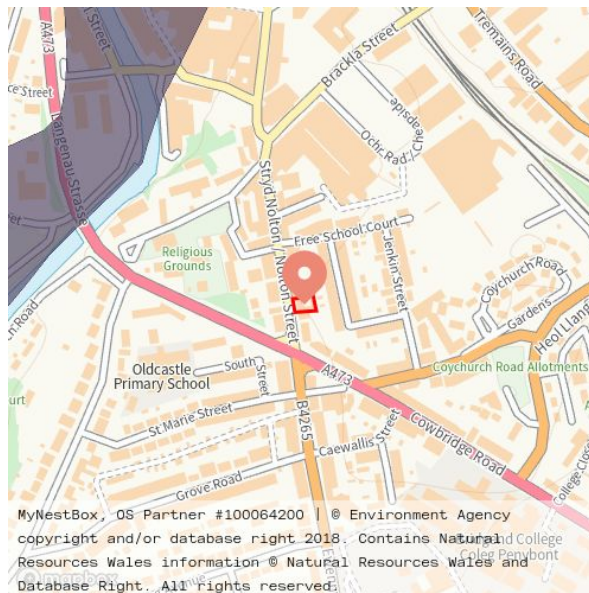

Captured at: 26/11/24 18:40 UTC

Historical Flood Areas

The property is more than 250 meters away from an area which has flooded in the past.

Captured at: 26/11/24 18:40 UTC

Planning Constraints

Green Belt

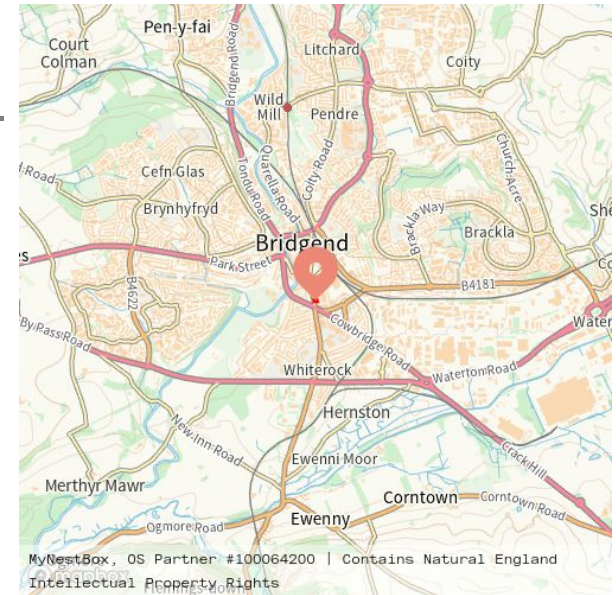

The property is more than 250 metres from a green belt designated area.

Captured at: 26/11/24 18:40 UTC

Areas of Outstanding Natural Beauty

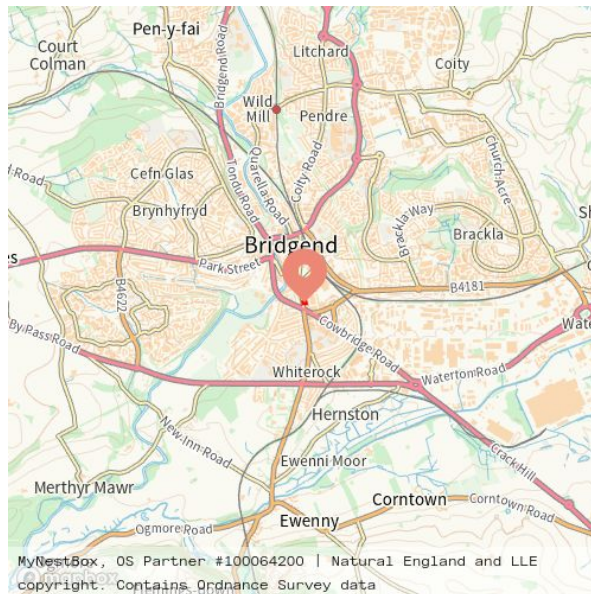

The property is not within an Area of Outstanding Natural Beauty (AONB).

Captured at: 26/11/24 18:40 UTC

National Parks

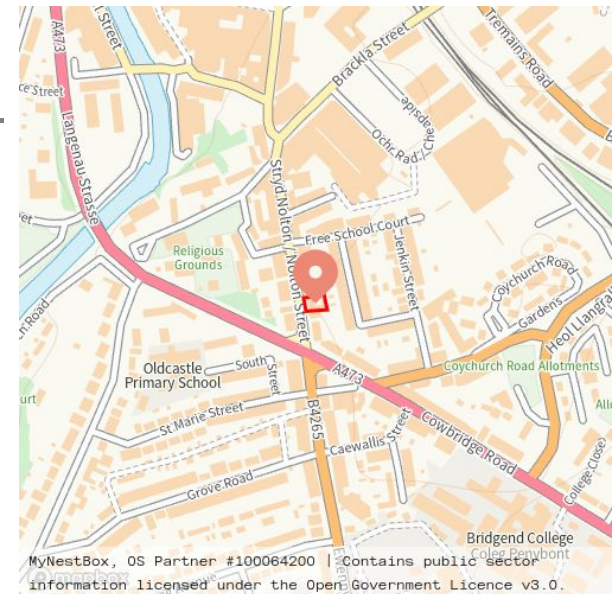

The property does not intersect with a National Park.

Captured at: 26/11/24 18:40 UTC

Special Areas of Conservation

The property is more than 250 metres from a Special Area of Conservation

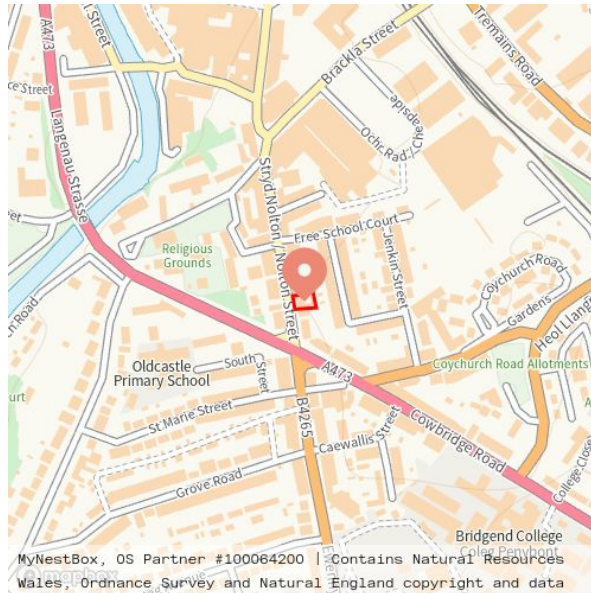

Captured at: 26/11/24 18:40 UTC

Planning Constraints

Special Protection Areas

The property is more than 250 metres from a Special Protection Area

Captured at: 26/11/24 18:40 UTC

Sites of Special Scientific Interest

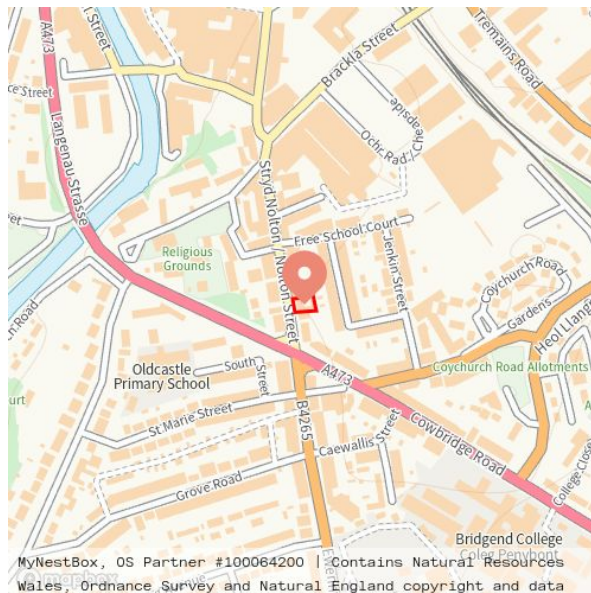

The property is more than 250 metres from a Site of Special Scientific Interest

Captured at: 26/11/24 18:40 UTC

Ramsar

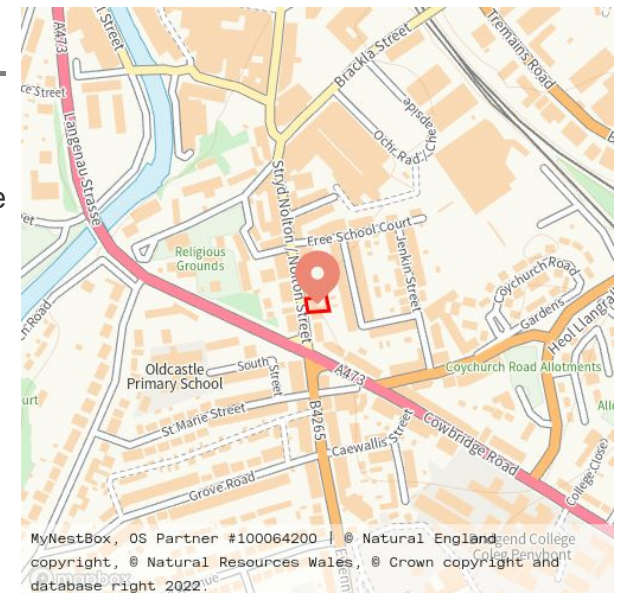

The property is more than 250 metres from a Ramsar site.

Captured at: 26/11/24 18:40 UTC

Nature Reserves

The property is more than 250 metres of a Local or National Nature Reserve.

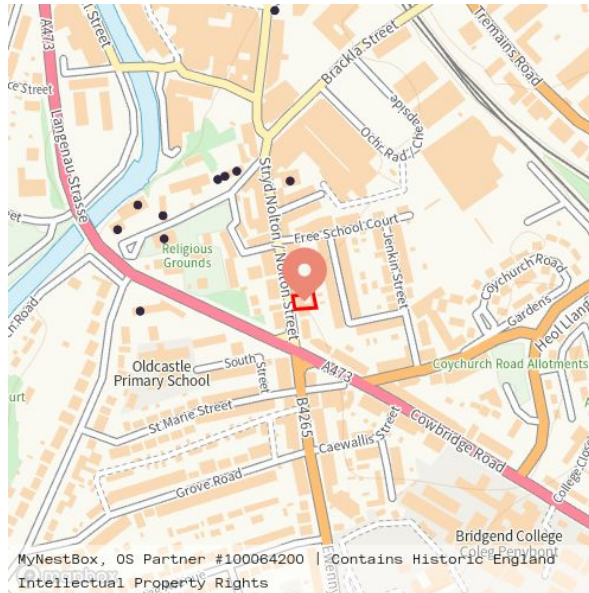

Captured at: 26/11/24 18:41 UTC

Planning Constraints

Listed Buildings

The property is within 250 metres of 1 or more Listed Buildings. Owning or living near a listed building may require adherence to strict regulations for alterations or renovations to preserve its historic or architectural value. Refer to section "Certificates of Immunity" to check whether immunity has been granted against certain planning restrictions.

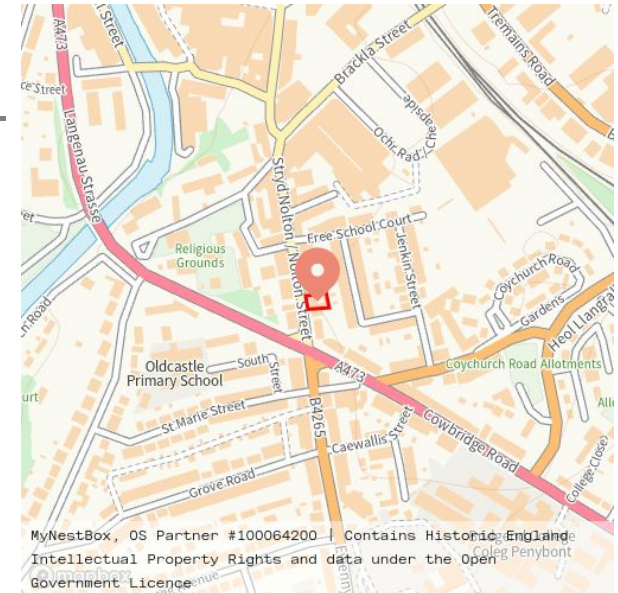

Captured at: 26/11/24 18:41 UTC

Scheduled Monuments

The property is more than 250 metres from a scheduled monument.

Captured at: 26/11/24 18:40 UTC

Certificates of Immunity

A Certificate of Immunity (COI) allows specific alterations without violating planning regulations, typically for listed buildings or structures with historical significance. The map shows the location of COIs as points, though absence of a COI does not necessarily mean the property is not listed or historically significant.

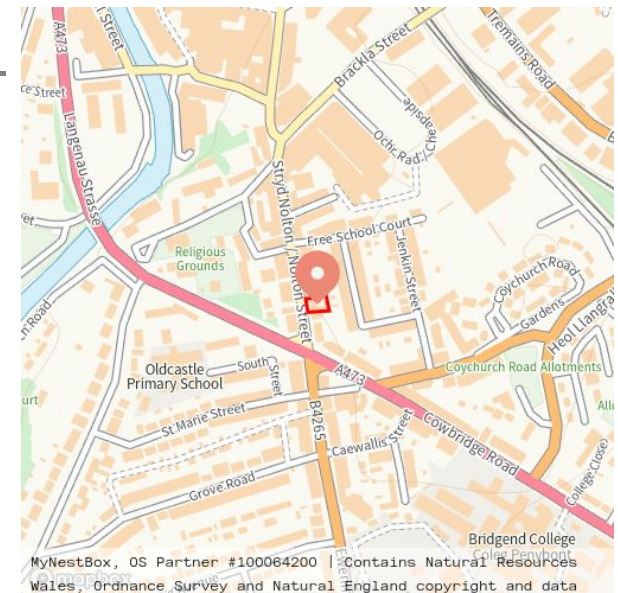

Captured at: 26/11/24 18:40 UTC

Ancient Woodland

The property is more than 250 metres from an ancient woodland.

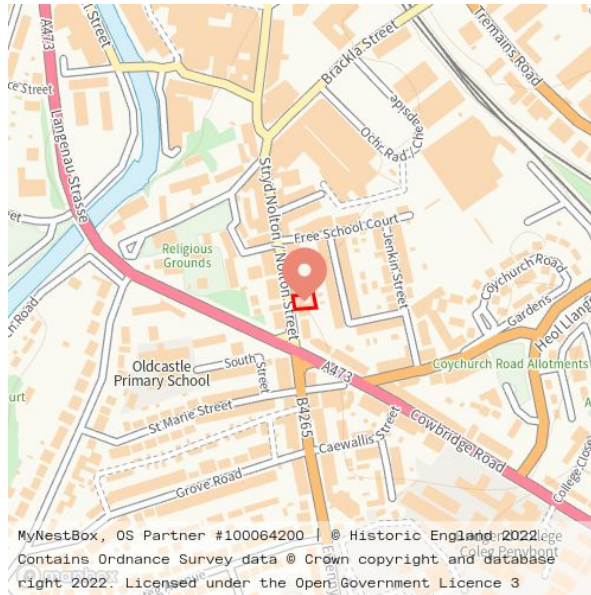

Captured at: 26/11/24 18:40 UTC

Planning Constraints

Registered Parks and Gardens

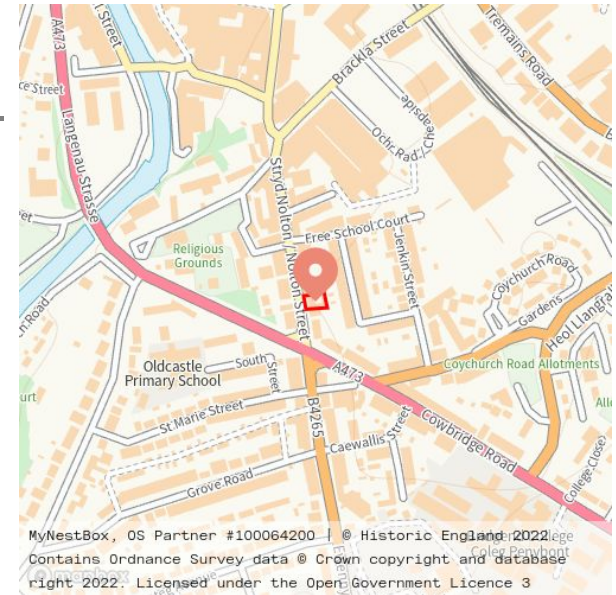

The property is more than 250 metres away from a registered park or garden.

Captured at: 26/11/24 18:41 UTC

World Heritage Sites

The property is more than 250 metres away from a world heritage site.

Captured at: 26/11/24 18:41 UTC

Open Access

The property is not within any land designated as Registered Common Land or Open Country.

Captured at: 26/11/24 18:40 UTC

Radon

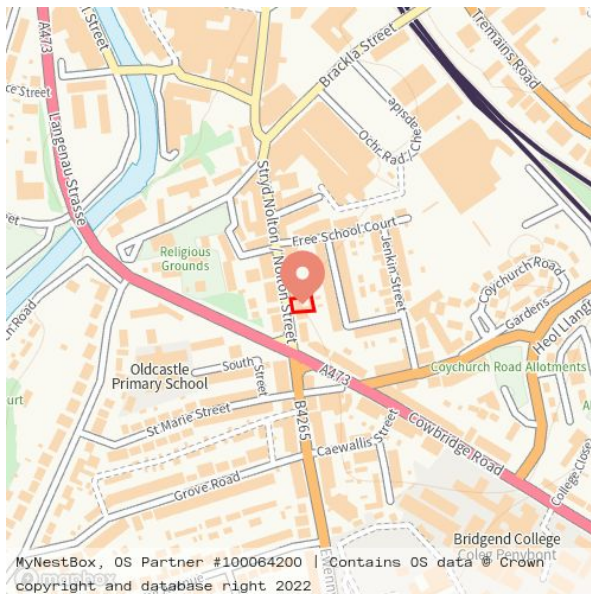

The property is in an area where fewer than 1% of buildings are estimated to be at or above the Action Level. The property is not in a Radon Action Area.

Captured at: 26/11/24 18:40 UTC

DRA/MNB/MAY2023 British Geological Survey © and
Database Right UKRI. All rights reserved.

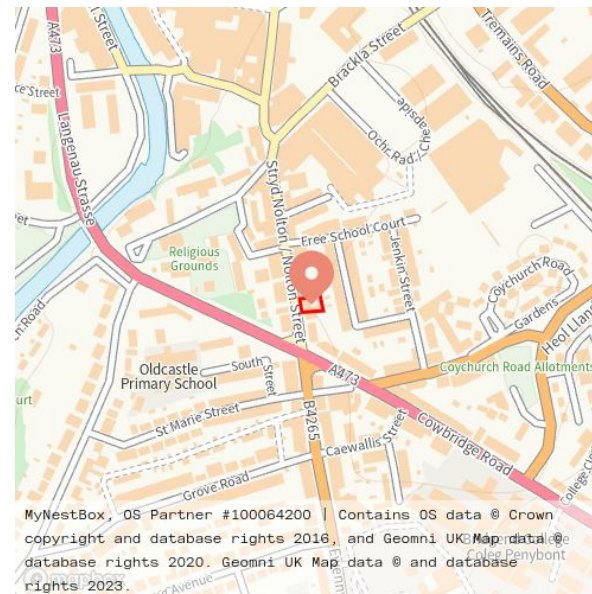

Overground Rail

The property is more than 250 metres away from a railway station or line.

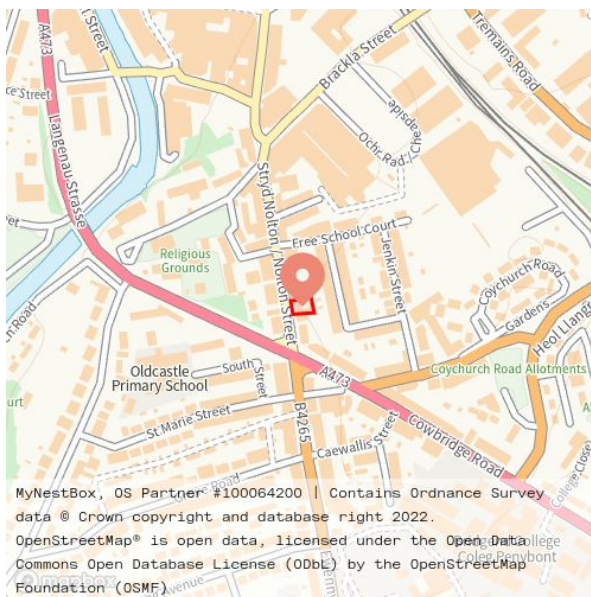

Overground Rail - Elizabeth Line

The property is more than 250 metres away from a railway station or track along the Elizabeth Line.

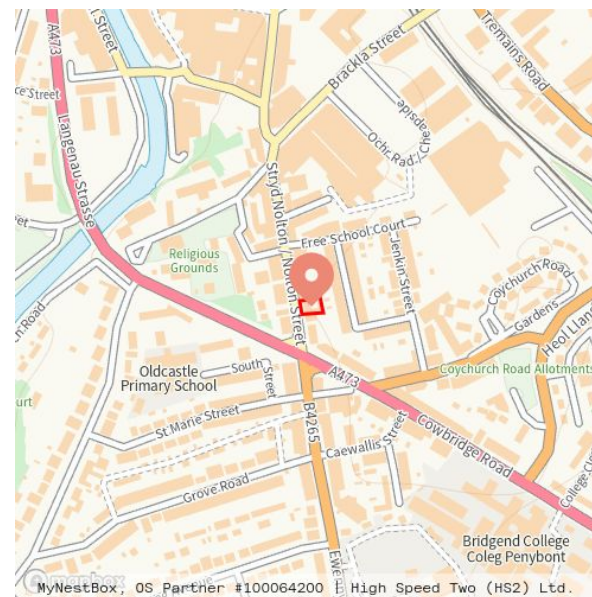

London Underground

The property is more than 250 metres away from a London Underground station or line.

HS2

The property is more than 300 metres away from a proposed HS2 station or line.

HS2 Safeguarding Zones

The property does not intersect with any HS2 Safeguarding Zone.

Captured at: 26/11/24 18:41 UTC

National Grid

The property is more than 100 metres from the nearest National Grid cable, overhead line, substation or tower used in high voltage (above 132kV) electricity transmission.

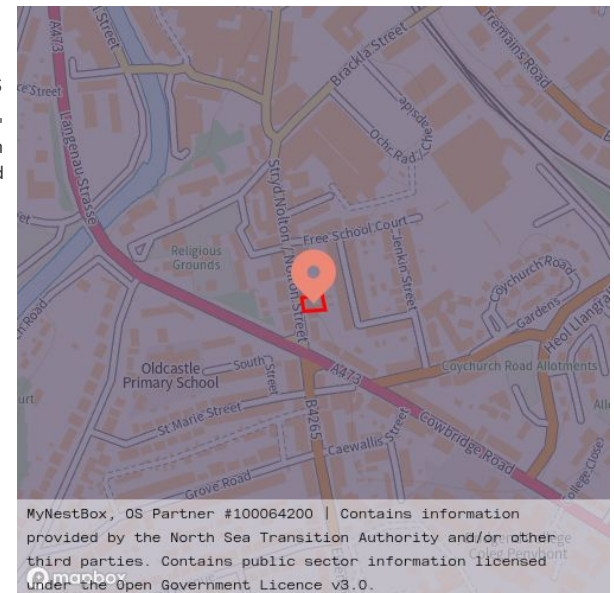

Captured at: 26/11/24 18:41 UTC

Petroleum Exploration and Development Licences

The property is less than 250 metres from an area where oil and gas exploration and production is licenced. This can have implications for a homebuyer. It may involve factors such as noise, odours, visual impacts, potential environmental risks, and regulatory requirements. It is important to consider the proximity, potential impacts on quality of life, and any associated property value considerations. Conducting thorough research, consulting with experts, and reviewing available information is recommended if you have any concerns.

Captured at: 26/11/24 18:41 UTC

Power Stations

The property is more than 250 metres away from a power station (includes nuclear power stations).

Captured at: 26/11/24 18:41 UTC

Solar Renewable Energy Sites

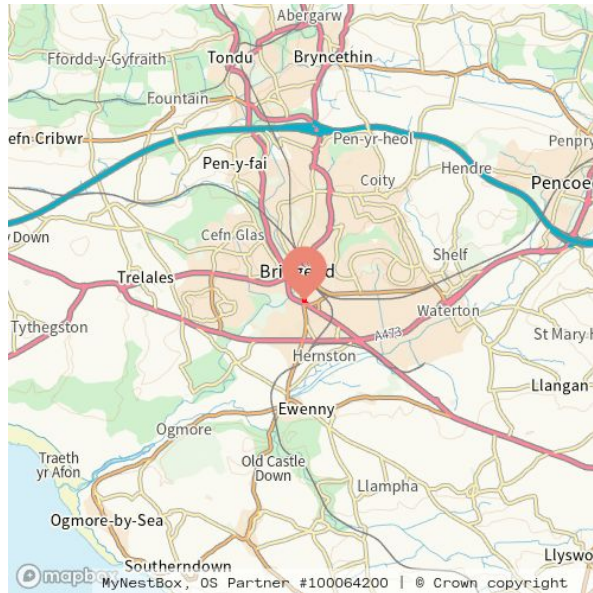

The property is more than 1km away from a current or proposed solar renewable energy site.

Captured at: 26/11/24 18:41 UTC

Wind Renewable Energy Sites

The property is more than 5km away from a current or proposed wind renewable energy site.

Captured at: 26/11/24 18:41 UTC

Other Renewable Energy Sites

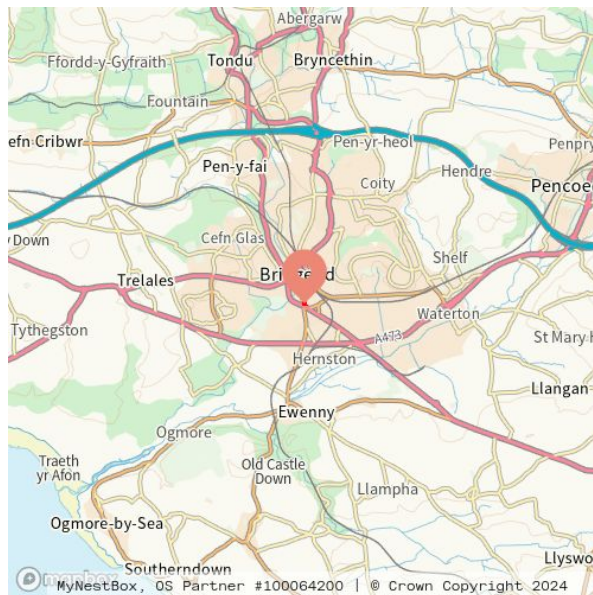

The property is more than 1km away from a current or proposed 'other' renewable energy site.

Captured at: 26/11/24 18:41 UTC

COMAH Establishments

The property is not near any Control of Major Accident Hazards (COMAH) sites or associated Public Information Zones (PIZ).

Captured at: 26/11/24 18:41 UTC

Shrink-Swell Clays

Ground conditions predominantly non-plastic or low plasticity. No special actions required to avoid problems due to shrink swell clays. No special ground investigation required, and increased construction costs or increased financial risks are unlikely due to potential problems with shrink swell clays.

Captured at: 26/11/24 18:40 UTC

DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Compressible Ground

No or very low indicators for compressible ground identified. No special actions required to avoid problems due to compressible ground. No special ground investigation required, and increased construction costs or increased financial risks are unlikely due to potential problems with compressible ground.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Running Sands

No or very low potential for running sand problems if water table rises or if sandy strata are exposed to water. No special actions required to avoid problems due to running sand. No special ground investigation required, and increased construction costs or increased financial risks are unlikely due to potential problems with running sand.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Collapsible Deposits

No or very low indicators for collapsible deposits identified. No actions required to avoid problems due to collapsible deposits. No special ground investigation required, or increased construction costs or increased financial risk due to potential problems with collapsible deposits.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.

Artificial Ground

There is a negligible or very low potential of ground movement. No further action is required.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey @ UKRI.
All rights reserved.

Landslides

No indicators for slope instability identified. No special actions required to avoid problems due to landslides. No special ground investigation required, and increased construction costs or increased financial risks are unlikely due to potential problems with landslides.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey @ UKRI.

Dissolution of Soluble Rocks

Soluble rocks are either not thought to be present within the ground, or not prone to dissolution. Dissolution features are unlikely to be present. No special ground investigation required, and increased construction costs or increased financial risks are unlikely due to potential problems with soluble rocks.

Captured at: 26/11/24 18:40 UTC

Bedrock Geology

The property intersects with the following rock types:
limestone, mudstone, and interbedded.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Superficial Deposits

The property has no recorded superficial deposits.

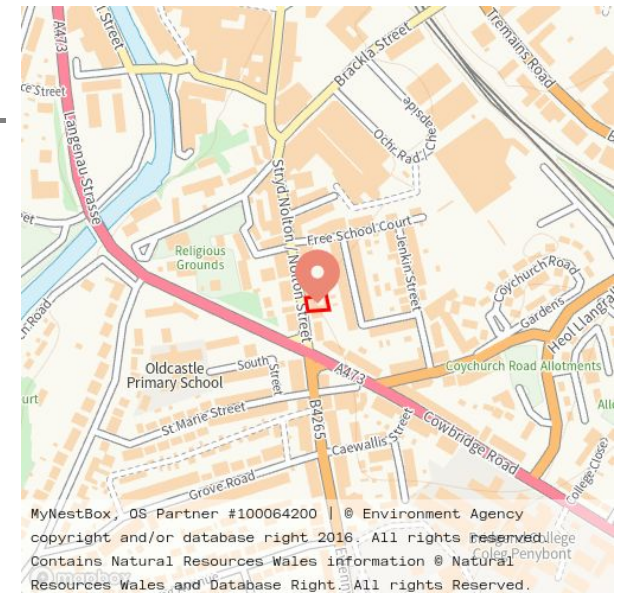

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Source Protection Zones

The property does not intersect with a SPZ.

Captured at: 26/11/24 18:41 UTC

Aquifer Designation

The property intersects a Secondary A and/or Principal aquifer.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Groundwater Vulnerability

The property intersects an area of medium or high groundwater vulnerability.

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Geological Permeability

The property intersects with the following rock permeability rating: very high.

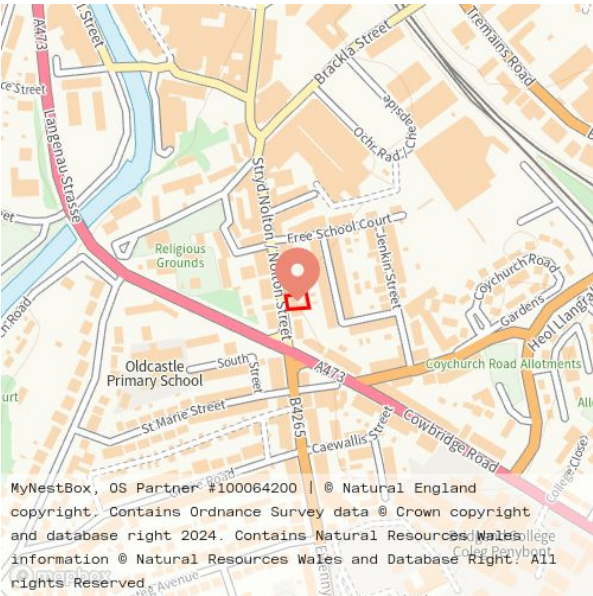

Captured at: 26/11/24 18:40 UTC

Derived from BGS Digital Data under Licence No.
DRA/MNB/MAY2023 British Geological Survey © UKRI.
All rights reserved.

Environmentally Sensitive Sites

The property is more than 250 metres away from an Environmentally Sensitive Site.

Captured at: 26/11/24 18:41 UTC

Surface Water Features

The property is within 250 metres of one or more surface water features.

Captured at: 26/11/24 18:41 UTC

Planning Applications

Large Scale Developments

Large scale planning applications includes relevant planning applications concerning multiple dwellings or significant infrastructure projects. Large scale (>150kw) renewable energy installations are also included.

Small Scale Developments

Small Scale Developments includes relevant planning applications categorised as either small or medium. Small planning applications are proposals for things like an extension to or renovation of a single dwelling. Medium planning applications are proposals concerning 2-5 dwellings. Small infrastructure projects, such as mobile phone masts or small scale (<150kw) renewable energy projects, are also included.

About Planning Applications Data

The planning datasets give a good representation of the planning application history around the property and we use a number of data providers namely LandHawk, Planning Pipe and manual checks of the Local Authority portals to confirm accuracy. Our data is limited to the date of this report production due to the planning application process being a live process, which can change regularly.

If your property purchase is reliant on planning proposals in the local area which may impact your decision to buy, we advise you contact the Planning Department at the relevant Local Authority to your property purchase to keep updated with proposed developments.

Martello shall not be liable for any losses or damages incurred by the client or beneficiary that arise as a result of any error, omission or inaccuracy which is based on any Third Party Content or any reasonable interpretation of Third Party Content and do not warrant that the planning data deriving from third party sources is accurate, complete and up to date.

Important Consumer Protection Information

The Search Code

- Provides protection for homebuyers, sellers, estate agents, conveyancers and mortgage lenders who rely on the information included in property search reports undertaken by subscribers on residential and commercial property within the United Kingdom.
- Sets out minimum standards which firms compiling and selling search reports must meet.
- Promotes the best practice and quality standards within the industry for the benefit of consumers and property professionals.
- Enables consumers and property professionals to have confidence in firms which subscribe to the code, their products and services.

By giving you this information, MyNestBox Limited (trading as Martello) is confirming that they keep to the principles of the Code. This provides important protection for you.

The Code's Core Principles

Firms which subscribe to the Search Code will:

- Display the Search Code logo prominently on their search reports.
- Act with integrity and carry out work with due skill, care and diligence.
- At all times maintain adequate and appropriate insurance to protect consumers.
- Conduct business in an honest, fair and professional manner.
- Handle complaints speedily and fairly.
- ensure that products and services comply with industry registration rules and standards and relevant laws.
- Monitor their compliance with the Code.

Complaints Procedure

MyNestBox Limited (trading as Martello) is registered with the Property Codes Compliance Board as a subscriber to the Search Code. A key commitment under the Code is that firms will handle any complaints both speedily and fairly. If you want to make a complaint, we will:

- Acknowledge it within 5 working days of receipt.
- Normally deal with it fully and provide a final response, in writing, within 20 working days of receipt.
- Keep you informed by letter, telephone or e-mail, as you prefer if we need more time.
- Provide a final response, in writing, at the latest within 40 working days of receipt.
- Liaise, at your request, with anyone acting formally on your behalf.

If you are not satisfied with our final response, or if we exceed the response timescales, you may refer the complaint to The Property Ombudsman scheme (TPOs): Tel: 01722 333306, <https://www.tpos.co.uk> email: admin@tpos.co.uk

We will co-operate fully with the Ombudsman during an investigation and comply with his final decision.

Complaints should be sent to:

Rob Crosby

Central Services Administrator

Action items are tasks identified based on the data supplied in the related Martello report that you may wish to take. They are intended only as suggestions, and you may wish to take different or additional actions.

	Action Text
Former Landfill	You should check title deeds, surveyor report and speak to the Local Authority to determine whether they have assessed the landfill and carried out any remedial works. If the property is a new build, check to see if gas preventative measures were installed and utilities are protected against contaminants.
